NOTES FOR THE TEACHER: TRANSCRIPT AND ANSWERS

This listening activity helps children to develop their aural acuity.

They listen to the lists of colours and keep a tally of how many times they hear each one. It's best to focus on one colour at a time.

A blank tally is provided on one of the sheets to help children who aren't familiar with the concept. They don't have to use the worksheet of course - they could just as easily keep count on their mini whiteboard, for example.

A	blanc noir noir blanc noir noir blanc blanc noir
B	rose marron rose gris rose rose marron rose rose marron
C	rouge bleu vert bleu rouge rouge vert bleu rouge jaune rouge bleu orange rouge bleu
D	violet orange jaune violet rose orange jaune jaune orange violet gris rouge jaune

1	blanc 4 noir 5	3	rouge 6 bleu 5
2	rose 6 marron 3	4	violet 3 jaune 4
