Can you create some picto-sentences like these for another pair to solve?

NOTES FOR THE TEACHER:

This is a Kagan Rally activity.

Children work in pairs to decipher and complete the sentences.

Each child writes in a different colour. They each write their names in the name box, and colour the circle using the pen or pencil that they will be writing with, so that you know who has written which sentences.

Children write alternate sentences. The one who isn't writing helps to decipher the sentence and write it correctly.

je joue

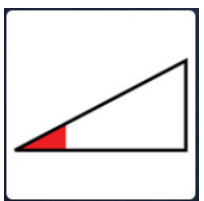

je fais

j'aime

mais

un peu
