## NOTES FOR THE TEACHER:

This is to help children to choose the correct definite or indefinite article to go with their noun.

Each article has three boxes under it. Children put into each box one thing that they know about the article. For example, for 'el', they would put *the / masc. / sing.*

Children then cut out the articles so that they have eight cards, each with an article on and the 3 pieces of information about it. You say an article and your choice of noun in English, and the children find and hold up the correct Spanish article.
